

Simplified migration to the Cloud

Fixed Price per user migration from Lotus Notes[®] to Microsoft Exchange Online Standard

Lotus Notes customers migrating up to 15,000 users to Microsoft Exchange Online Standard can take advantage of Applicable and Quest Software's "Cloud Kit". Anchored by Quest MessageStats Report Pack for Lotus Notes and Notes Migrator for Exchange, the Cloud Kits include consulting and migration services from Applicable.

Applicable Limited has one purpose – tangibly improving customer performance through the deployment of global workforce collaboration and messaging systems.

Implemented by specialist professional services teams, our migration solutions are backed by best in class IT service management and operations, supported by a 24x7 service desk of qualified experts.

Our track record and reputation is second to none and our people are certified by Microsoft to deliver the right skills into your organization.

Our simplified migration service includes consulting services delivered by Applicable using Quest Software's award winning assessment and transition solutions.

Why choose a cloud migration?

- Simplification makes risk mitigation easier and enables Applicable to complete projects on-schedule
- Clear timetables and real-time status information for end-users and management minimises support burden
- Business productivity is maintained by performing transition activity out of hours to ensure zero downtime
- Microsoft Exchange Online is priced per user per month, with no additional server software, hardware or maintenance
- Experienced consultants deliver the migration, using trusted tools from an experienced vendor
- Quick deployment – usually from two days to two months

This software and services package, just like cloud computing services, has a fixed price per user, and simplifies pricing, migration and deployment

Approach

Our modular approach captures your specific business migration requirements. A simplified migration includes:

ANALYSIS

- Detailed pre-migration assessment

INSTALLATION AND COEXISTENCE

- Coexistence of on premise and cloud technologies

MIGRATION

- Six months e-mail and calendar historical data migrated
- A combination of on-site consulting work with remote migration services
- Quest MessageStats Report Pack for Lotus Notes and Quest Notes Migrator for Exchange

How it works

PRE-TRANSITION ASSESSMENT

A pre-transition assessment ensures project success by helping to identify unused mailboxes and components with an emphasis on preventing unexpected loss of functionality. This allows us to determine, in conjunction with your IT staff, an exact set of migration requirements.

COEXISTENCE

E-mail and calendar data, including free/busy calendar lookups, recurring meetings and e-mail enabled applications, will remain intact and accurate as they are sent between differing Exchange server environments.

DIRECT MIGRATION TO EXCHANGE

A simplified migration takes e-mail and calendar data directly to Exchange Online hosted by Microsoft without having to replicate the data to a staging server or remote data centre.

24X7 SUPPORT

Applicable offers customers a local point-of-contact for personalized support and human intervention backed by 24x7 support from both Applicable and Quest Software.

Proven Solution

Applicable are a key partner of Quest Software certified to deliver transitions for customers with up to 25,000 users to Microsoft Exchange. Applicable together with Quest have expertise that is unmatched.

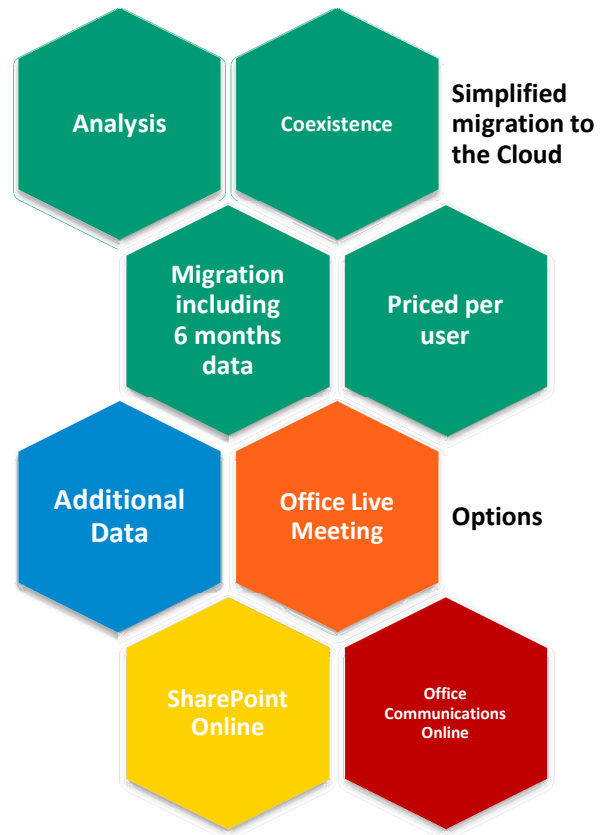

Applicable has completed messaging and collaboration migrations for customers worldwide of all sizes. Applicable's transition consultants and project managers ensure that your migration and coexistence goes smoothly and shows value to end users and the business.

Quest Software tools have been used to transition nearly twenty million users to Exchange, SharePoint and Microsoft Online Services.

Availability and pricing

Fixed price per user migration to the Cloud from Lotus Notes® to Microsoft Exchange Online Standard is available now.

Additional cost options

Ask us for a detailed consultation.

ADDITIONAL DATA

Additional data beyond last six months can be added.

MICROSOFT ONLINE SERVICES

Business Productivity Online Standard Suite consists of Microsoft Exchange Online, Microsoft SharePoint® Online, Microsoft Office Live Meeting and Microsoft Office Communications Online, all hosted online and delivered quickly, easily, and without the upfront costs of an on-premise deployment.

Pricing for the suite is £6.71 per user per month.

Options from the Business Productivity Online Standard Suite can be added to a cloud migration at the time of purchase.
